NullPointers

Inspector Team 4: Paul Mena - The Programmers

Requirements   9.0/10 bad Structure,requirements are not easy find
Use Case D   9.0 /10 -1: It is necessary to establish a relationship between the variables
Class D   8.0/10 - there's no some attributes that are in the Netbeans(class appliance: computer, class tv:color,kind class blender:size)
Code   7.5/10 unnecessary libraries, there's variables in the visual that aren't in Netbeans,when you are calling CSV file it should be in another class that isn't where main function found.
Executable   8.5/10 Well structured, but a little confused
final grade : 44.0

Proyect: ApplianceStore
